On behalf of the staff, residents, and volunteers at the Edmonton General Continuing Care Centre, I would like to thank you an awesome performance at our Saturday entertainment event. It was truly a great opportunity for us to see such a talented group perform and beautiful costume and music.

Everyone attending the event was impressed and I personally received numerous compliments on your incredible dancers. We were very impressed with your professionalism and flexibility in working with your group. The best endorsement of your performance, however, is the fact that many of our residents attending the event actively participate in the dance by moving their body and wish to leave their wheelchair to dance with you. Last but not the least, learning Spanish is so much fun and we all appreciate the great effort of your teacher. Without your hard work and dedication, we would not have been able to have a wonderful event. Once again, I wish to extend a most sincere thank you to all of you. You made a great impact on our residents to enhance their quality of life.

Sincerely,

Pollyanna Kwong
